### Efficiency.

1 B McNeely. The grand educational thought this vicinity last week. of the meant age is looked upon as sive and as finishe; yet, as a whole, the construction of the Dun Springs

What will the washer woman's daugh- a few days for Indiana, where he will ter do after she is graduated from the high school? Will she take her mother's place at the tub? Will the

hod carrier's son, with his hard-earn ed diploma in his pocket, shoulder his father's hod and proceed to carry up mortar and brick? Will the ditch digger's son inherit his father's spade? And so on through the entire catalogue of honest labor.

We should teach our pupils that education is not to be looked upon as a preparation for a life of ease nor as a means of giving one man the advantage over another, whereby one may exist upon the labor of others. Let us teach and impress on ourboys and girls that faithful, honest labor is needful every walk and avocation of life; that efficiency in education is to prepare us for better citizenship. whereby the individual may become a worthy and self-sustaing member
